EzyDecks® LOADING PLATFORM

Designed and Manufactured by GREVILLEA®

The Safe, convenient and easy to use solution to access buildings when lifting loads with a crane.

Manufactured by GREVILLEA with an 100% Australian made stamp EZYDECKS is the perfect solution when Constructing a residential or commercial highrise building. With innovative design and engineering it provides maximum ease and safety when loading on or off a crane at multistorey's and any height.

EZYDECKS are capable of reaching out to 5000mm's and carry a load of up to 5000 kg's making it one of the highest capacity loading platforms in the market. Our patented technology also allows a battery operated pushing system for extra convenience.

IN CO-OPERATION WITH

GREVILLEA AUSTRALIA

ADVANCE CRANES

EZYDECKS ranges in 3 different sizes and specifications.

GLP-223

For jobs that are limited to smaller space (2200mm wide) with lighter loading capacities of up to 3000kg

GLP-225

For jobs that are limited to smaller space (2200mm wide) with heavier loading capacities of up to 5000kg's.

GLP-346

For jobs requiring larger loading area (3400 wide) and heavier loading capacities of up to 6000kg's.

EzyDecks® LOADING PLATFORM

Designed and Manufactured by GREVILLEA®

Why choose ezy decks
For your multi-storey lifting & loading needs

1 AUSTRALIAN DESIGNED

Loading Platforms with new innovative design and unique features. Designed and engineered by Australia's own engineers. EZYDECKS promises to provide the best support to our clients. You will be directly in contact with the design team for any questions and enquiries you will have.

2 RANGE TO SUIT YOUR NEEDS

EZYDECKS are designed to SAVE space, time, money and workforce. It is capable of fitting into constrained spaces with our compact model being only 2200mm and large at 3400mm with higher than standard loading capacities so you can get more done, in all conditions.

3 QUALITY & SAFETY CONTROL

At EZYDECKS we don't compromise when it comes to quality and safety testing. Each crane loading platform coming out of the production line is tested thoroughly in our dedicated testing facilities by fully trained QA people to ensure quality and safety standards and requirements are met.

4 COST EFFICIENT SOLUTION

Being in the crane hire industry over 10 years gives us the extensive experience and knowledge when it comes to hire, transport and installation in such working environments. This allows EZYDECKS to be the most cost effective solution in the industry for your highrise lifting needs.

5 LOADING CAPACITY

Each product of our range are tested with their maximum loading capacities of up to 6000kg. EZYDECKS crane loading platform comes in 3 variations. 2200mm/3t, 2200mm/5t and the 3400mm/6t.

EzyDecks LOADING PLATFORM

Designed and Manufactured by GREVILLEA

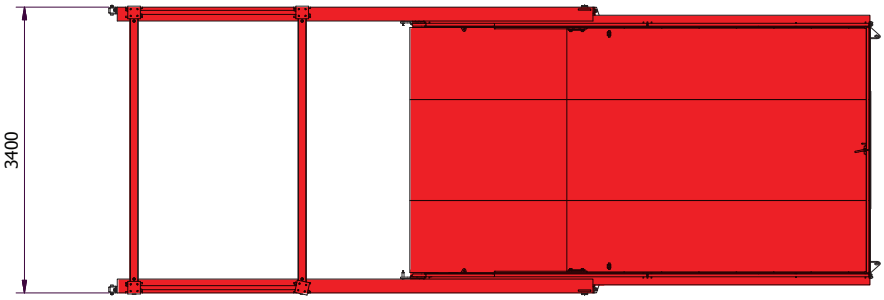
GLP-345

For jobs that require large loading areas and a high loading capacity.

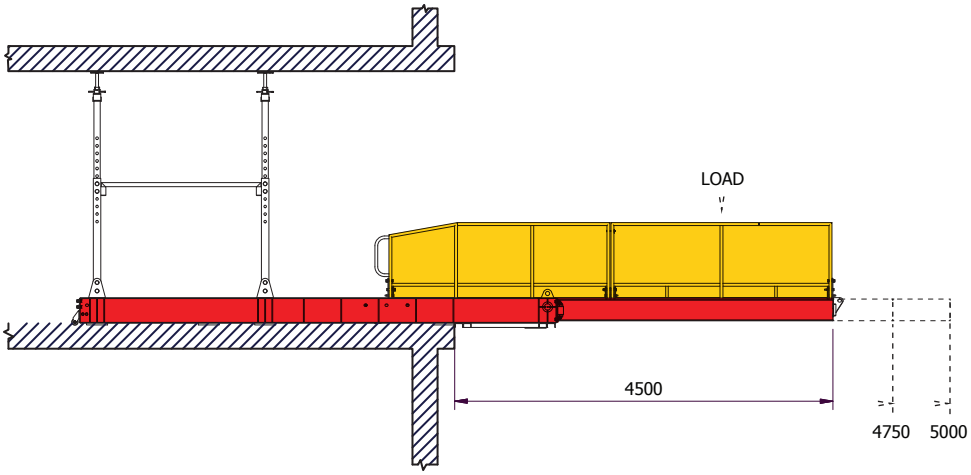
If your project requires large loading areas along with heavy loads up to 5000 kg's then the GLP-346 is just for you.

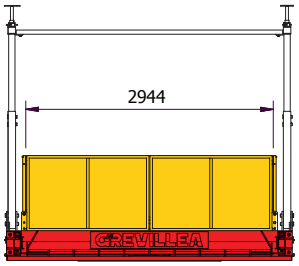
With a width of 3450mm it is the largest of our range. Required in-building length is 3.45m.

Below are more Technical specifications for the GLP-345 Loading Platform



OUTBOARD	MAX LOAD
4500mm	5000kg
4750mm	4500kg
5000mm	4000kg





PHONE : 0409 000 888 WEBSITE : www.ezydecks.com.au EMAIL : info@ezydecks.com.au

EzyDecks® LOADING PLATFORM

Designed and Manufactured by GREVILLEA®

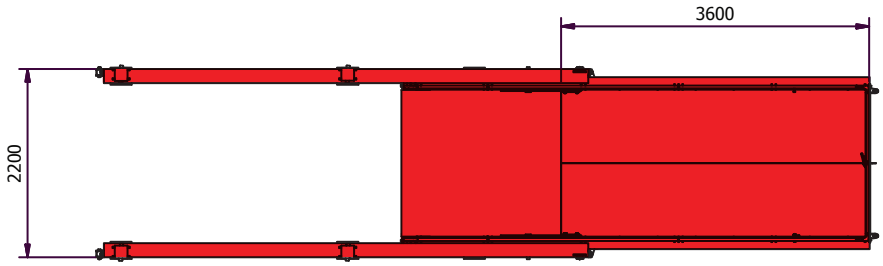
GLP-225

For jobs that are limited with space but require heavier loading capacities.

The GLP-225 Loading Platform is designed to withstand heavy loads in a compact space. It's the heavy duty version of it's predecessor GLP-223.

GLP-225 requires only 3.45m of spaces inside the building with a maximum loading capacity of 5000 kg's

Below are more Technical specifications for the GLP-225 Loading Platform



OUTBOARD	MAX LOAD
4500mm	5000kg
4750mm	4500kg
5000mm	4000kg
